HOLD STEADY

► For applications
done in bed, in the car
(parked, ahem) or on
the sofa, this nail
holder sturdily cradles
the bottle (the flexible
material adjusts to
any shape or size) and

BY NUMBERS► Zero patience for precise
nail application? This polish
is applied like spray paint and
coats the nails (and the tips
of your fingers) with a fine
mist of colour. Let it dry for
a few minutes, then remove
the polish from the skin (and
cuticles) with soap and water.
